

ERP APPLICATION ARCHITECT

<https://www.icdrachten.nl/vacatures/erp-application-architect/>

Bedrijf: Photonis

Locatie: Roden

Opleidingsniveau: WO

Periode: 1 jaar

Stage: Nee

At Exosens, we believe in empowering businesses through intelligent solutions. As our ERP Application Architect, you will be at the forefront of transforming our ERP systems to align with strategic business goals. You'll lead the design and optimization of scalable, secure, and innovative ERP solutions, working with teams across the organization to streamline operations and enhance performance.

ERP APPLICATION ARCHITECT

As a trusted architect, you'll shape the future of our ERP systems, ensuring seamless integration with other enterprise platforms. Key responsibilities include:

The position:

- **ERP System Design & Architecture:** Lead the design of ERP systems that support and drive business objectives. Work closely with functional teams to convert business processes into technical solutions.
- **Customization & Configuration:** Tailor ERP modules to meet the unique needs of the organization, optimizing performance and ensuring user-friendly configurations.
- **Integration & Data Management:** Design smooth integration with third-party and legacy systems while managing data flow and integrity across the ERP ecosystem.
- **Technical Leadership:** Provide guidance and expertise to development teams, making key technical decisions and recommendations for ERP tools and platforms.
- **Performance Optimization:** Monitor system performance, identify opportunities for improvement, and ensure the ERP environment is always up to date and secure.
- **Collaboration & Communication:** Act as a key communicator between business stakeholders and technical teams, ensuring everyone is aligned with the ERP strategy.

Our ideal candidate:

You bring extensive experience in ERP architecture, with at least 7 years working on platforms like SAP, Oracle, or Microsoft Dynamics. You have a strong technical foundation and hands-on experience in ERP customization, integration, and data management. Beyond technical expertise, you're a collaborative leader who thrives in cross-functional environments and are willing to travel to the other Exosens locations.

What we're offering:

- Full-time position in a thriving high-tech company
- A salary between € 4500,- and € 5200,- per month
- Secondary employment conditions, including 27 vacation days + 13 ADV (Additional Leave) days, pension and tax free benefits
- Opportunities for growth on technical and personal level
- Room for self-development and education

Application Process:

Interested candidates should submit their CV and cover letter to HRM at Exosens: hrm@exosens.com. By applying, you agree to the provision of your personal data to internal stakeholders and potential consultation of your LinkedIn account.

Join Photonis and contribute to ground-breaking research in a stimulating and innovative environment!

By applying for this position, you agree that we will provide your personal data to our internal stakeholders. We may consult your LinkedIn account. A Certificate of Good Conduct (VOG) will be requested upon employment.
