

Graduation Internship Continuous Improvement

<https://www.icdrachten.nl/vacatures/graduation-internship-continuous-improvement/>

Bedrijf: Resato Hydrogen Technology B.V.

Locatie: Assen

Opleidingsniveau: HBO

Periode: Approx. 20 weeks

Stage: Ja

ASSIGNMENT DESCRIPTION:

Are you great at research and interested in continuous improvement? Then this graduation internship is perfect for you! During your internship, you will explore how continuous improvement can be implemented at Resato. You will investigate what is needed and what steps Resato needs to take to implement it successfully.

DESIRED QUALIFICATIONS:

- You are in the final year of your HBO studies (in the field of Business Administration)
- You are motivated, independent and proactive
- You have a critical mindset
- You are available from February 2025, for a period of \pm 20 weeks

WHAT DO WE OFFER:

- The opportunity to work at a rapidly growing, leading company that is continuously developing
- Direct supervision by the QA manager
- A competitive internship allowance
- Fresh fruit every day
- Freedom for initiatives and ideas
- The chance to make an active and valuable contribution to the company's work

PROCEDURE:

The internship starts in February 2025.

Are you excited after reading this thesis vacancy and want to be part of an organization contributing to a greener future?

Then quickly send your CV and motivation letter to HR@resato-hydrogen.com. Please also let us know which vacancy you are applying for. We look forward to meeting you!
