Would you like to be part of one of the most technologically advanced companies in the development and construction of hydrogen fueling stations? Do you want to contribute to a cleaner and more sustainable world, and work in a rapidly growing organization?

Then consider doing your internship at Resato Hydrogen Technology!

Intern Business Administration

As an intern Business Administration, you will become part of our Quality Assurance (QA) department. We have various internship assignments available, such as

- conducting and improving process audits
- further developing a DMS ISO 9001:2015
- setting up an integrated improvement system
- designing, implementing, and securing a QCP
- shaping the Stage Gate processes
- researching how continuous improvement can be implemented

Who are you

- You are studying at HBO level in the field of Business Administration, third year
- You are motivated, independent and proactive
- You have a critical mindset
- You are available from February 2025, for a period of \pm 20 weeks

What do we offer

- The opportunity to work at a rapidly growing, leading company that is continuously developing
- Direct supervision by the QA manager
- A competitive internship allowance
- Fresh fruit every day
- Freedom for initiatives and ideas
- The chance to make an active and valuable contribution to the company's work

What we do and who we are

Resato Hydrogen Technology is a technology leader in hydrogen fueling stations, with our headquarters located in Assen. With over 30 years of experience in high-pressure technology, we understand how high pressure works. This ensures that customers can easily and seamlessly refuel with hydrogen.

At Resato, our focus is on sustainability, safety and efficiency. We have successfully implemented multiple hydrogen fueling solutions in the Netherlands, Belgium, Germany, France and Sweden.

But it's not just about what we do; it's also about who we are! With an open company culture, freedom for ideas and opportunities for development, we work together towards a

better future. We encourage employee development at all levels through training and growth opportunities. Our goal? To become the best employer in the Northern Netherlands!

Procedure

Are you excited after reading this internship vacancy and want to be part of an organization contributing to a greener future?

Then quickly send your CV and motivation letter to H2-academy@resato-hydrogen.com. Please also let us know which tasks and/or topics you prefer for your internship or thesis project. We look forward to meeting you!
